DOGWOOD

a true

ALL-AMERICAN

BEAUTY

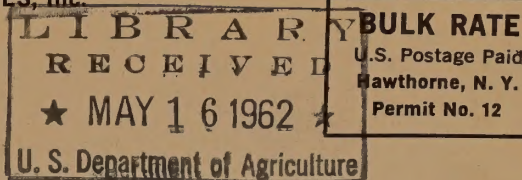

you can enjoy this
very year if you ...

PLANT NOW!

Dogwood... the best loved aristocrat of all flowering trees. Sizes, from two feet, to huge specimens are available at the nursery. Use Dogwood to blend with or highlight, your lawn, landscape and foundation plantings. Many are in full bud, and will flower this year! **AT THE NURSERY** you can choose from Pink or White blooming varieties to please your budget... and beautify your landscape.

PINK DOGWOOD IS THE "OFFICIAL" MOTHER'S DAY GIFT AND REMEMBRANCE

A ROSE is *not* a rose... is *definitely not* a rose...

Poetry is poetry . . . and facts are facts. Some roses come packed bare-root and cost very little. WHY? *Because, they're worth very little.* Many are culls, or unsuitable varieties for this area. All require a great amount of work and luck on your part for successful transplanting.

AT THE NURSERY WE FEATURE *ONLY* POTTED ROSES OF THE HIGHEST QUALITY. All rose plants are patented, due to their growing and flowering qualities . . . or are selected varieties that we know do very well in this area. When you buy our potted roses . . . we have done all the work for you — we've root pruned, top-trimmed, planted them in eight pints of sterile soil, fertilized and sprayed with insecticide—all you do is plant them, enjoy them! Since plants are in vigorous, active growth when you receive them . . . the chances of planting failure are almost zero!

FREE potted PEACE ROSE
with every 5
rose plants
purchased!

LISTED ARE A FEW OF THE SUPERIOR ROSE VARIETIES WE FEATURE

insure outdoor living
privacy with a

LIVING SCREEN

Enhance your property, and at the very same time get the privacy you require with an evergreen or flowering screen. The cost can be tailored to your budget . . . but the pleasure it gives you defies a price tag. In most instances, we suggest an evergreen screen for year 'round privacy . . . but if you favor a natural screen of flowering shrubs, our University trained landscape specialists will be pleased to plan the correct plant placement, and varieties, to give you continuous bloom from Spring's first thaw through Fall's frost. VISIT THE NURSERY . . . and plant now!

magnificent bloom — and evergreen, too!

AZALEA and RHODODENDRON

Year after year, the popularity of these beautiful shrubs grows and grows. The striking white, pink or red bloom brings Spring forth in a burst of glory . . . and most varieties are evergreen, too. Use Azalea and Rhododendron as a highlight to your foundation plantings, incorporate into screening, highlight attractive entrance areas, or to "pull the eye" away from disturbing features. Most important, use Azalea and Rhododendron if you want your landscaping to be colorful and professional. AT THE NURSERY, you'll find dozens of varieties that have been proven hardy in this area. All are skillfully container-grown or balled and burlapped to insure continuous growth. Plants start at a pin-money \$1.75 . . . and are available to fit your budget, landscape and pocket-book up to the largest specimen sizes.

a suggestion for the perfect

MOTHER'S DAY GIFT

There are few gifts that grow in value and beauty with every passing year . . . and are also a living remembrance of your love and thoughtfulness.

Indoor foliage plants — or outdoor trees and shrubs "fill the bill!" AT THE NURSERY, you'll find an extensive collection of the most desirable foliage plants . . . along with hundreds of thousands of trees and shrubs that are truly magnificent, and thoughtful remembrances of the day. Pink Dogwood is accepted as the "official" Mother's Day plant . . . but we suggest that you be a "free-thinker" and choose the plant, tree or shrub that you believe Mom would most appreciate.

JAPANESE ANDROMEDA

Upright growth. Clusters of Lily of the Valley type flowers, and shiny light green leaves. From **\$3.98**

HETZI JUNIPER

Blue-green horizontal branches. Spreads twice as wide as high. From **\$2.98**

SLENDER DEUTZIA

Dwarf species that forms a low bushy shrub. Delicate white flowers. From **\$1.98**

FRINGE TREE

Large shrub, or bushy tree. White fringe-like flowers followed by blue grape-like berries. From **\$3.98**

OLD FASHIONED LILAC

Purple or white. Bushy at base. Good for screen. Fragrant. From **\$2.98**

RHODODENDRON

Roseum Elegans. Lilac-pink flowers. One of many varieties available. From **\$5.98**

WISTERIA

Long, graceful grape-like clusters of Pink, Blue or White Spring flowers brighten this hardy vine. From **\$2.98**

PAINT YOUR LANDSCAPE WITH COLOR

“’Tis the season to be jolly” is a line from a Christmas song . . . but actually it’s just as appropriate for the gay lighthearted Springtime.

Shown are just a few of the ways you can brighten your property . . . and your outlook. The correct choice of flowering trees and shrubs can give your landscape a cheerful, colorful appearance from earliest Spring through late Fall.

Do yourself, and us, a favor. Drive out to the nursery . . . look around, and see what a beautiful world we live in. Then, if you want, transplant some of this loveliness into your life.

THANKS.

RHODODENDRONS

Dr. H. C. Dresselhuys. Crimson red. Vigorous growth. Distinctive foliage. From **\$6.98**

AZALEA HINODEGIRI

Evergreen leaves. Rose red flowers. Low and broad. From **\$1.75**

JAPANESE BLACK PINE

Irregular, erect or spreading. Olive green needles. Shown with Juniper ground covering. From **\$7.98**

SHORE JUNIPER

Low, cushion-like mound. Spiny, grey-green foliage. Ideal for rock garden. From **\$2.98**
